Standard Operating Procedures and Accompanying Tools for Integrating Cash Assistance into Gender-Based Violence Programming – North West Syria

Background

Gender-based violence (GBV) specialists who lead response activities with GBV survivors must leverage all tools at their disposal to support survivors' recovery, including the potential of integrating Cash and Voucher Assistance (CVA) within GBV case management when appropriate. With support from USAID's Bureau for Humanitarian Assistance (BHA), the Women's Refugee Commission (WRC), CARE Turkey, and Syria Relief and Development partnered in Jarablus and Salqin, North West Syria, to strengthen the capacity of GBV service providers and leverage cash assistance integrated within case management to support 100 survivors of GBV. To access project resources, including the evaluation report, please visit [link].

Contents of the Resource Package

This resource package is intended to support GBV specialists who are considering integrating CVA into GBV Case Management to support GBV survivors in their recovery in collaboration with cash specialists. Standard Operating Procedures (SoPs) and accompanying tools are shared that align with best practice guidance and tools, including the Cash & Voucher Assistance and Gender-Based Violence Compendium: Practical Guidance for Humanitarian Practitioners and the WRC CVA and GBV Toolkit. All resources have been slightly adapted based on lessons learned in each site following utilization based on an After-Action Review workshop with project partners.
