Protection Issues

CARE has implemented over 35 large water and waste management infrastructure projects, providing clean water and improved sanitation for over 35 municipalities.

Reached more than 1,000 households with shelter and improved water and sanitation facilities in the most vulnerable neighborhoods of Tripoli and Beirut.

Assisted over 30,000 individuals of the most vulnerable Syrian refugees through the Lebanese Cash Consortium with unconditional cash assistance for food and water, rent, and severely needed medicine.

Over 15,000 reached with 64 solar lighting systems, the rehabilitation of common areas in 27 buildings, and the installation of three 2,000 liter community water tanks.

Provided 325 safe-space and outreach protection awareness sessions, supporting 3359 individuals. Sessions included gender-based violence, early child marriage, domestic violence, sexually transmitted desieses, personal & public health, and tenancy rights.

7 Water CAD software training sessions were conducted for 20 staff members including heads of departments, engineers and technical experts from South Lebanon Water Establishment.

Almost 70% of surveyed Syrian households have no lockable door, 65% of them have no windows.

A quarter of Lebanese have never received water through a piped public network.

53% of refugees are living with less than what a household requires in cash to meet basic needs.

Almost 70% of surveyed Syrian households have no lockable door, 65% of them have no windows.*
