CARE’s Global Gender Cohort

Does your project, program or team need specialist gender support? Work with CARE’s Global Gender Cohort to access technical assistance from a diverse team of gender specialists from around the world.

What is the Global Gender Cohort?
The Global Gender brings together a group of experienced gender experts throughout CARE International. They are trained to deliver a broad range of technical assistance to CARE’s programs and partners, with expertise across CARE’s key sectors.

Who are the members?
Most Global Gender Cohort Members are CARE staff based with teams around the world. They hold expertise across each of the impact areas in CARE’s Vision 2030 Strategy and offer experience in both humanitarian and development contexts.

What support can they provide?
CARE’s Global Gender Cohort provides technical assistance services across a number of organizational development and programming focus areas:

1. Reflections on Equity, Diversity & Inclusion (REDI)
2. Social norms change approaches
3. Gender analysis and Rapid Gender Analysis (RGA)
4. Organisational gender and diversity assessment
5. Project and program design and implementation
6. GBV technical assistance
7. Research and learning.

5 reasons why you should use CARE’s Gender Cohort

1. **They have diverse skills:** Whether you are looking for an inspiring facilitator or a great proposal writer, Cohort members offer a broad range of technical skills to support CARE teams.

2. **They have diverse experience:** Cohort members have experience in a range of sectors across CARE’s impact strategies.

3. **They’re a diverse group:** Cohort members are based with CARE teams around the world and offer technical assistance in many languages.

4. **They understand CARE:** The majority of Cohort members are CARE staff, so they understand CARE’s frameworks and approaches.

5. **It’s a good investment:** The cost of gender technical assistance from Cohort members is competitive with the costs of external gender consultants.

Whether you need a gender analysis for a project or gender training for your whole team, the Global Gender Cohort can provide experienced professionals who will ensure your work is grounded in best practice.
