ACTION

WHO WE ARE

We are a community of **passionate, globally-minded individuals who believe in justice and equality for all**. Together, we speak up alongside marginalized and vulnerable populations around the world to ensure their voices are heard and needs are met.

WHAT WE DO

Through the power of our collective action, we urge U.S. leaders to pass policy reforms that foster strong, resilient communities, promote lasting solutions to poverty, and save lives globally. **Everything we do centers on women and girls** — their potential, their leadership, and their unique needs — because we cannot overcome poverty until all people have equal rights and opportunities.

OUR IMPACT

In 2023, CARE worked in **111 countries**, reaching more than **174 million people through 1,600 projects**. CARE Action and its advocates have championed numerous policy wins with support from both sides of the aisle. We've made progress on food and nutrition security, women's empowerment, global funding, and more. These policy reforms ensure that current and future generations will benefit from the changes we make today.

WHERE WE FOCUS

Gender and Empowerment

We uphold women's and girls' rights. Including them in decision-making is key to overcoming poverty for all.

Food and Nutrition

We equip local farmers with resources and training to sustainably produce enough food now and in the future so no one in the world goes to bed hungry.

Women's Health

We champion women's rights to access affordable healthcare and make informed choices about if, when, and how many children to have.

Humanitarian Emergencies

We defend and protect the rights of the most vulnerable during crisis or conflict with U.S. leaders who can aid in response efforts.

Foreign Assistance Budget

We advocate for robust U.S. funding that keeps up with global needs and creates a safer, more prosperous world for everyone.
